

# Project #6 CS 550

## Geometric Modeling

### Kirby

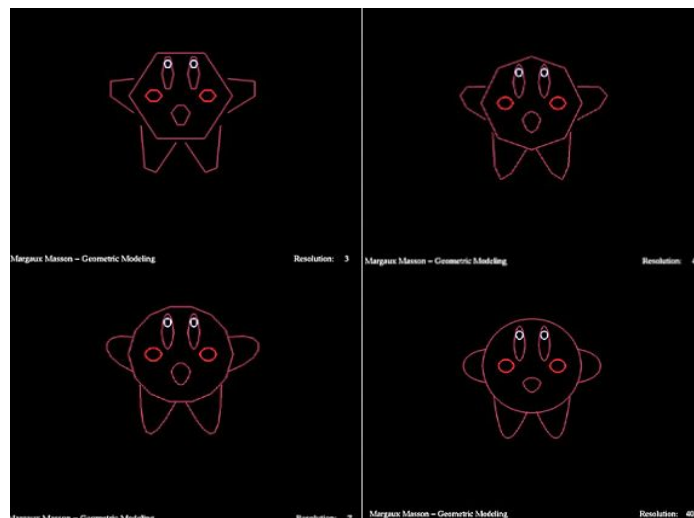

Margaux Masson  
[massonm@oregonstate.edu](mailto:massonm@oregonstate.edu)

**Kirby – Bézier curves : normal, jumping, jumping + control points, jumping + control lines, nomale + control points& lines, jumping + control points& lines**

In order to display the control points and lines, the user can choose it in the right-click menu, or by hitting the keys: “c”/”C” to display the control points, and “l”/”L” to display the control lines.  
To freeze or de freeze the animation, use the “f”/”F” key.

### Resolution:

Here we can see the effect of the resolution on the model - Resolution in the previous pictures: 3, 4, 7, 40.  
In order to increase or decrease the resolution, hit the + and - keys.
